

## COMPANY PROFILE

XYZ is a leading company providing surveying services to major construction projects. We have been engaged as primary surveying consultants on some of Greece's biggest construction projects, such as the **new Athens International Airport Eleftherios Venizelos**.

The above projects have been complex and often required deploying several field parties at the same time, and over several years. Our expertise and capacity helps to significantly reduce risk for our clients.

Our company participated in major Olympic Venues Projects built or renovated for the Athens 2004 Olympic Games including

- **Karaiskakis Football Stadium**
- **Olympic Village** housing estate built to host the athletes participating in the Games
- the renovation of the **Peace and Friendship Stadium**
- **Olympic Rowing Centre** of Schinias
- **Olympic Tennis Center (OACA)**

and other sporting arenas including the

- **Atromitos Stadium**
- **Aegaleo Stadium**
- Costa Navarino the **Bay Golf Course**.

## SERVICES

We have won the trust of more than 100 of the largest technical companies in Greece and abroad.

Our advantage is the cutting edge equipment for spatial information technology provider including Nikon field stations, Faro terrestrial Laser Scanner and Thales Geodetic real time cinematic GPS equipments.

Our service is supported by effective software tools as Trimble RealWorks, Cyclone CloudWorx Pro, Autodesk Civil 3D, Geomatika 10 PCI.

Our philosophy is to ensure the resolution of our customers' cases in as short a time as possible using the most modern technologies and gaining precious time while at the same time drastically decreasing costs.

Our services include

- Terrestrial Laser Scanning
- As Built 3D modeling, intermediary or final
- Industrial Surveying Services
- Land Survey
- Network Establishment for control and reporting
- Piling Surveys
- Bulk Earthworks
- Retention walls
- Positioning of Structural Elements, coordination
- Stock Piling Calculations
- 3D Visualisation
